- 1. Review of in-competition and out-of-competition samples. 2017.
- 2. Review of KazNADC Result Management. 2017.

Welcome speech from our director

When protecting the rights of athletes to have a fair sport at the national and international levels, National Anti-Doping Centre of Kazakhstan (KazNADC) fully understands the importance of creating a culture of clean sports, which puts the importance of sport, not just victory, to the middle.

The pursuit of clean sport is not an easy path for everyone who is involved, but it is the reason why athletes and KazNADC have a desire to fight together.

In general, 2017 was full of sport events for Kazakhstan. For instance, the Winter Universiade, which required in-advance preparation for the work of the doping control service. Preparation of doping control officers, technical equipment and organization of doping control stations - all this is the result of the hard work of our team.

Also, during the year, a special set of anti-doping events was held before the Winter Asian Games (Sapporo, Japan), the Winter Olympic Games (Pyeongchang, South Korea), the Summer Asian and Para-Asian Games in Indonesia.

“

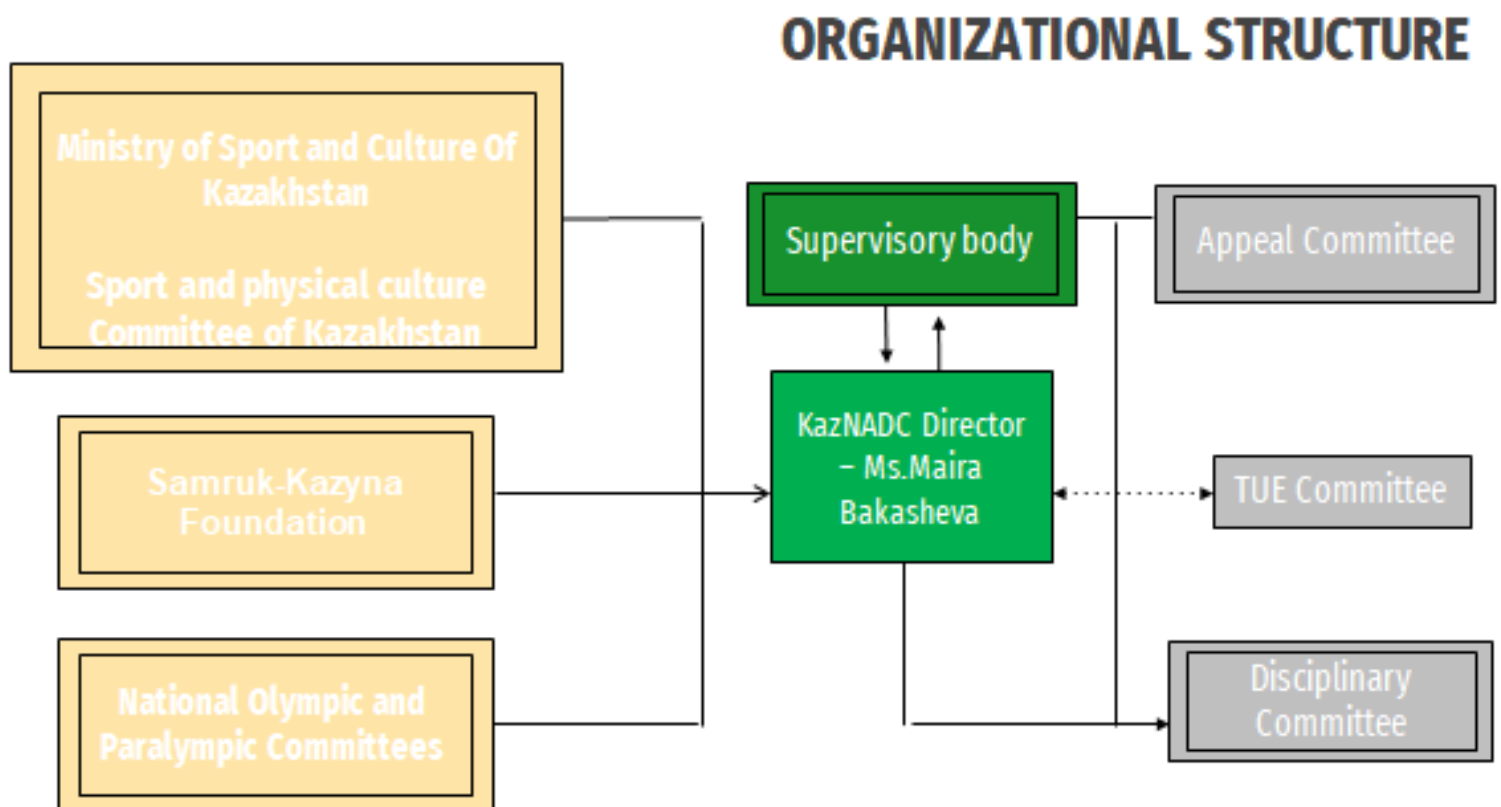

This is the
result of the
hard work
of our team .

We will continue to work with the sports community to bring the idea of a fair and clean sport into reality.

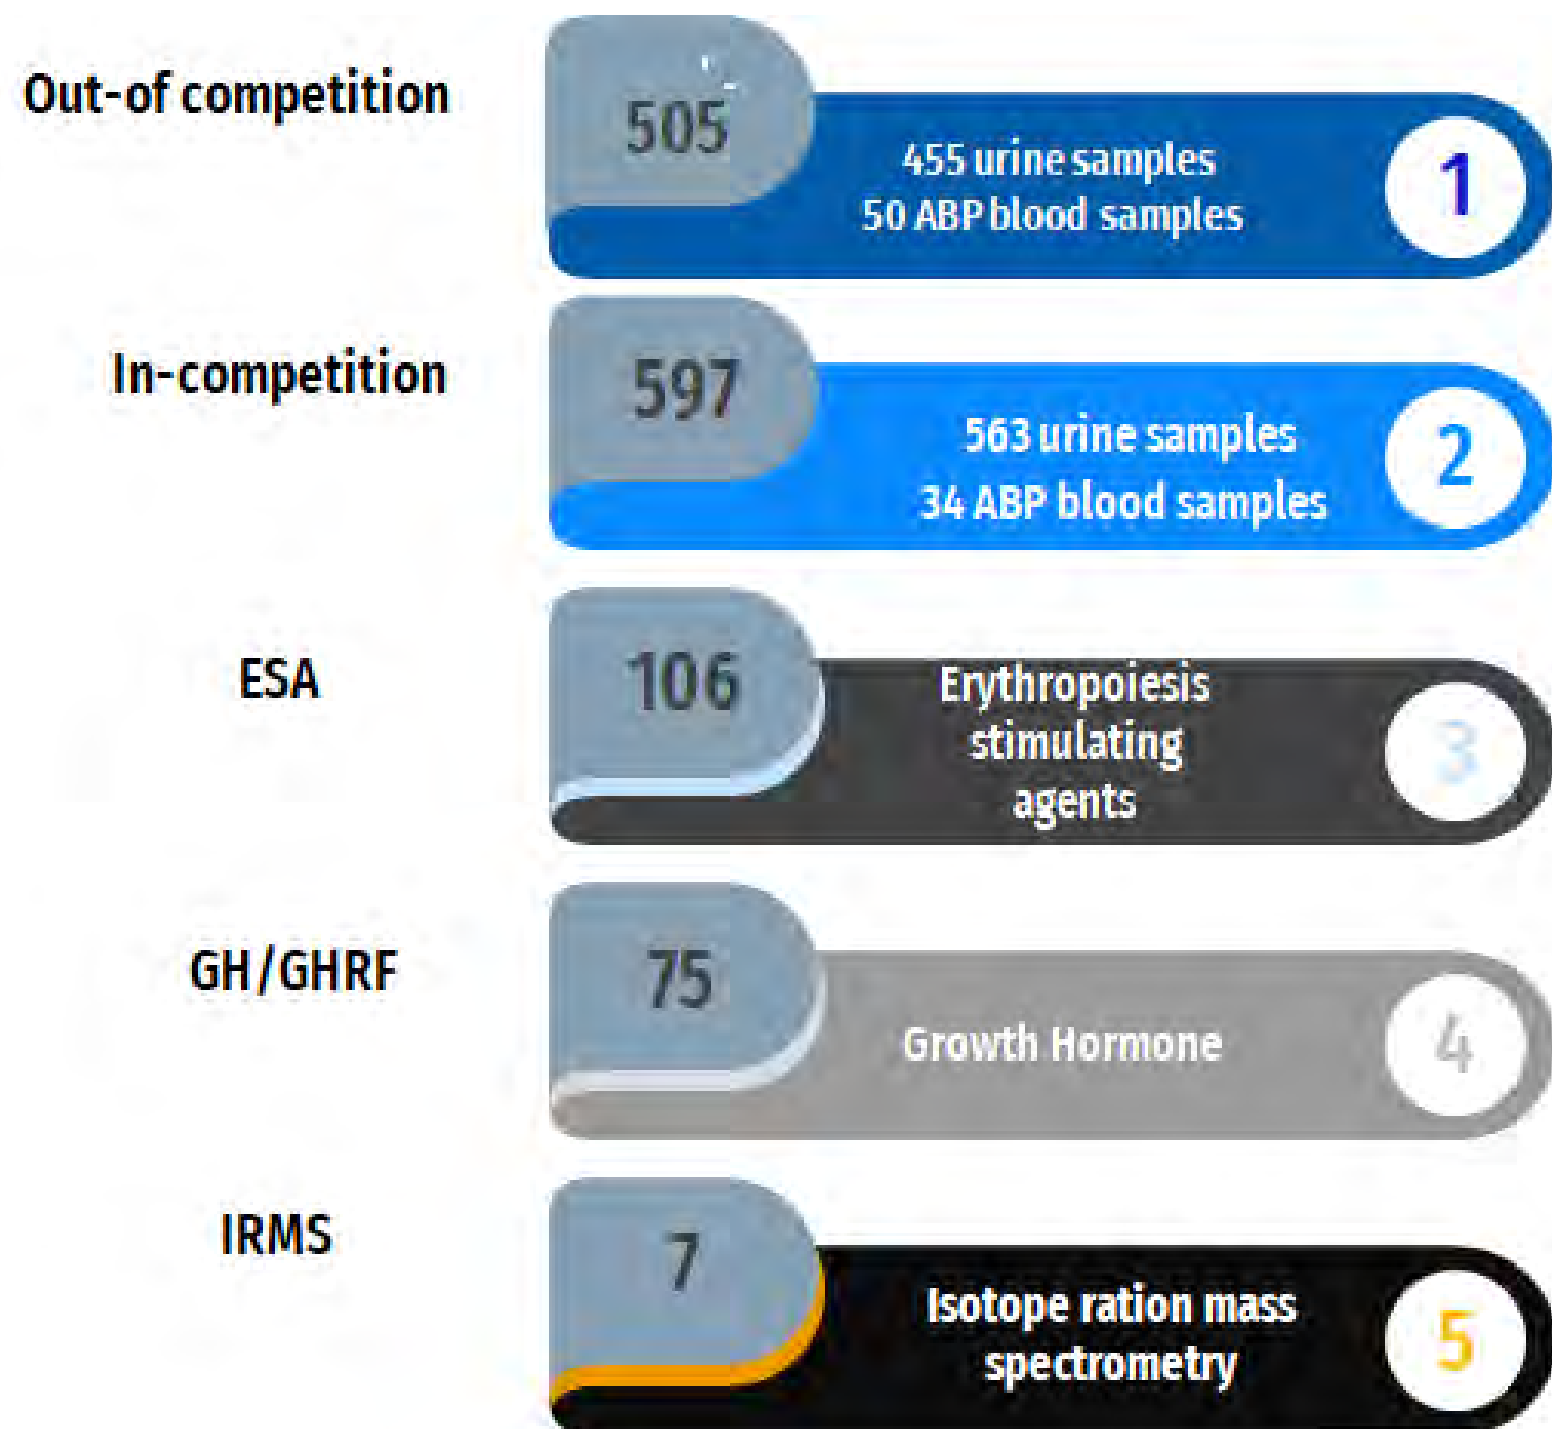

with best regards,

Ms. Maira Bakasheva
Director, KazNADC
