Welcome speech

Ms. Maira Bakasheva
Director
Kazakhstan National
Anti-doping Centre

Dear colleagues and supporters!

National Anti-Doping Centre (hereinafter - KazNADC) was established in April 2013, and since then has been conducting anti-doping activities aimed at creating and maintaining fair and clean sport.

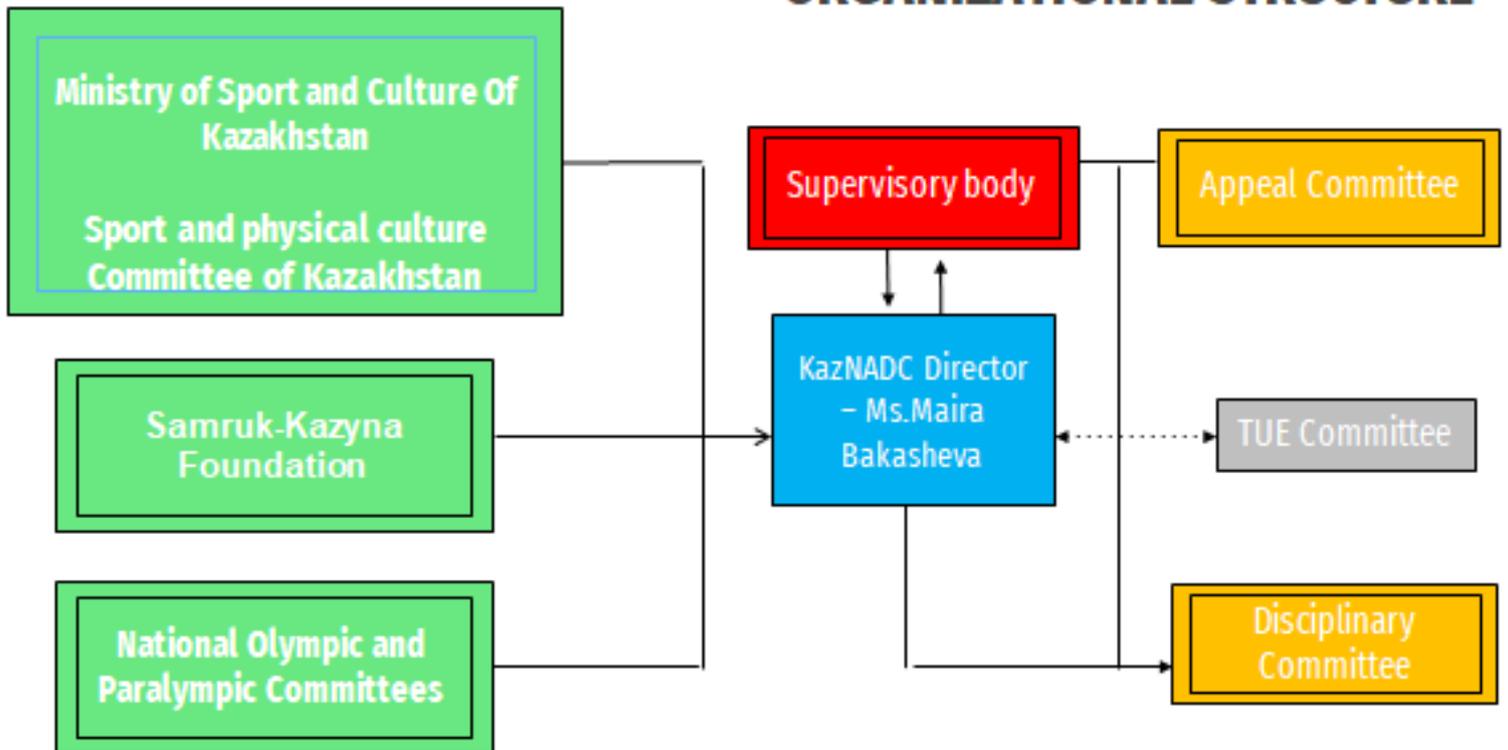

While designating the main mission to provide athletes and support personnel with information, knowledge and skills to comply with the principles of fair play and preserve sport free from doping, after years KazNADC remains dedicated to the set course.

In the process of implementing the planned goals, in 2020 KazNADC faced many new challenges that followed us since the beginning of the coronavirus pandemic.

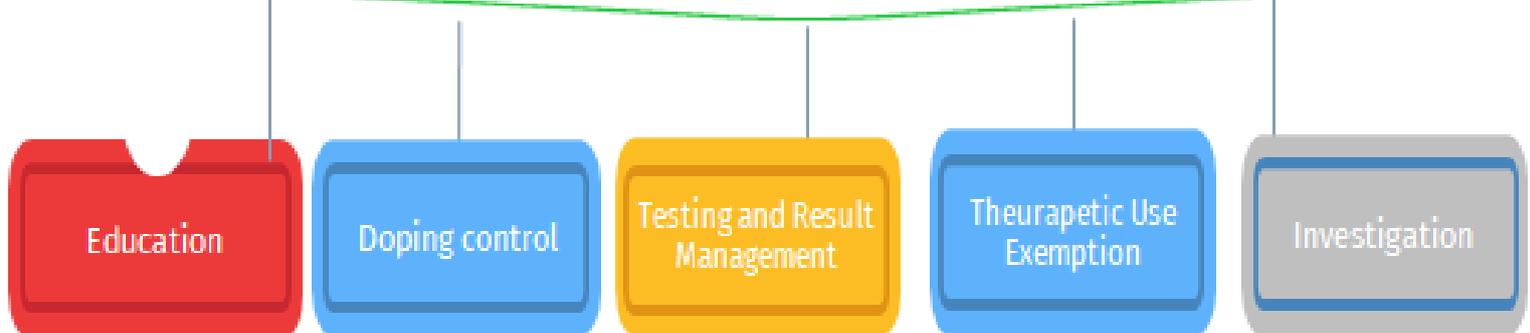

At a time when it seemed that the whole world had taken a pause, it was important to maintain integrity and readiness for challenges and a quick response. Therefore, now we are pleased to present to your attention the annual report of the National Anti-Doping Center of Kazakhstan.
